

MODRULJ

STABILNA PODRŠKA ZA USPEŠAN RAD
STABLE SUPPORT FOR SUCCESSFUL WORK

serija
M
240

Model M240 se izdvaja od konkurentnih modela po tome što nigde nema plastiku kao konstruktivni, noseći ili vezivni elemenat, već isključivo kao ukrasni elemenat. Čvrstoća, nesalomivost i velika izdržljivost pored odlične udobnosti čini pomenuti model stolice najboljom kupovinom u cenovnoj klasi radnih stolica na našem i evropskom tržištu.

Osnovni model ove stolice sadrži naslon za leđa u mreži, za koji možete birati boje, lumbalnu podršku koja je podesiva po visini, sinhro mehanizam S sa 5 pozicija zaključavanja, plastičnu piramidalnu zvezdu 680 mm, plastične točkice fi.50 mm, bez rukonaslona i glavonaslona.

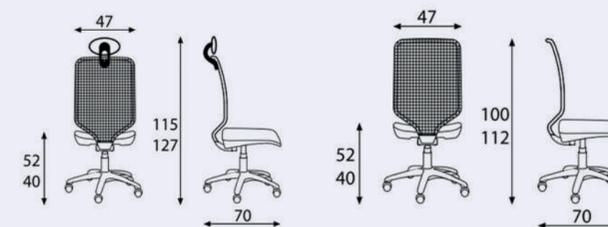

The M240 model stands out from competing models because there is no plastic as a constructive, carrier or binder, more exclusively as a decorative element. Strength, durability and high endurance in addition to excellent comfort makes this model the best-selling model in the price class of work chairs in our and European market.

The basic type of this chair contains a seat-back in the mesh, for which you can choose colors, adjustable height support, synchro mechanism S with 5 locks position, plastic pyramid base 680 mm, casters made of plastic fi.50 mm, without armrest and headrest.
