Osnovni model stolice sadrži sledeće:
 Naslon za leđa tapaciran i podesiv po visini,
 lumbalna podrška,
 sinhro mehanizam S sa 5 pozicija zaključavanja,
 plastična piramidalna zvezda 680mm,
 plastični točkići fi.50mm,
 bez rukonaslona i glavonaslona.
 Mogućnost izbora zvezda, točkića, stopica,
 liftova, rukonaslona, naslona za leđa, boja i
 materijala.

Podesivi naslon za leđa po visini, sistem gore/dole.
 Metalna konekcija mehanizma i naslona za leđa
 omogućava da prilagodite radnu stolicu svojim
 potrebama. Sedište je ergonomski oblikovano
 kao i naslon, a bitno je da ima lumbalnu podršku,
 što je velika prednost tokom dugog radnog dana.

Adjustable backrest height, the up/down system.
 The metal connection of the mechanism and backrest
 allows you to adjust the work chair to your needs.
 The seat is ergonomically shaped as a backrest, and
 it is important to have lumbar support, which is
 a great advantage during a long day.

Odličan je izbor za opremanje poslovnih prostorija jer je
 udobna, jednostavno dizajnirana i funkcionalna.
 It is an excellent choice for furnishing business premises
 because of its comfortable, simply designed and functional.

Moguće je podešavati visinu gasnim cilindrom,
 a postoji i opcija podešavanja dubine sedišta
 što će se dopasti svima onima koji vole da se
 osećaju udobno dok rade. Sedište je tapacirano,
 naslon takođe, a možete da birate boju i materijal
 iz široke palete ponuđenih opcija.

It is possible to adjust the height with the gas cylinder,
 and there is also a depth-adjusting option that will
 appeal to everyone who likes to feel comfortable
 while working. The seat is upholstered, a backrest
 also, and you can choose color and material from
 a wide range of offered options.
